As temperatures rise, we find ourselves craving that which is cool and refreshing. One craving that always fits the bill is the mighty cucumber. Fortunately for us, there are a host of gins and vodkas that feature this restorative fruit. We suggest you pick one for your next summer cocktail.

UNCLE VAL'S BOTANICAL GIN

3 Badge Mixology founder August Sebastiani created Uncle Val's Gin in 2012 to honor his uncle, Zio Valerio. A retired physician, Mr. Valerio is also an avid cook and gardener who uses the plants that he grows in his garden to prepare his food. Using the same types of plants and herbs that his uncle would, Sebastiani created Botanical featuring juniper, cucumber, lemon, sage and lavender.
