BOZAL MEZCAL ADVENT CALENDAR

The Gift:

Speaking of crazy good advent calendars, this one kind of takes the cake. The calendar is populated with 24 200ml (that's just above a 1/4 bottle size) of super rare, limited, and refined mezcals from the much beloved and lauded Bozal. The advent calendar also comes with two hand-made tasting copitas and two tealight candles for lighting when you've finished the calendar's contents on the last day. This is to honor the mezcaleros who made this smoky spirit.

Who It's Perfect For:

This is a great gift that will impress someone who knows their shit when it comes to booze.

There's a serious wow factor here that transcends the highest echelons of spirits knowledge and takes it somewhere new.
